Free online math videos on fraction-related topics: mixed numbers, equivalent fractions, adding and subtracting mixed numbers, adding and subtracting unlike fractions, finding the least common denominator, and comparing fractions. The videos are recorded in high-density (HD) and are viewable both here as well as at my Youtube channel.

Free fraction videos online, part 1 - Math Mammoth

The long division allows computing the infinite decimal expansion of a rational number. If the rational number is a decimal fraction, the division stops eventually, producing a decimal numeral, which may be prolonged into an infinite expansion by adding infinitely many 0. If the rational number is not a decimal fraction, the division may continue indefinitely.

Decimal - Wikipedia

Subtraction is an arithmetic operation that represents the operation of removing objects from a collection. The result of a subtraction is called a difference. Subtraction is signified by the minus sign ($-$). For example, in the adjacent picture, there are $5 - 2$ apples meaning 5 apples with 2 taken away, which is a total of 3 apples. Therefore, the difference of 5 and 2 is 3, that is, $5 - 2 = 3$.
