Debt Ratio is a financial ratio that indicates the percentage of a company's assets that are provided via debt. It is the ratio of total debt (long-term liabilities) and total assets (the sum of current assets, fixed assets, and other assets such as 'goodwill'). = or alternatively: = For example, a company with \$2 million in total assets and \$500,000 in total liabilities would have a debt ratio ...

Debt ratio - Wikipedia

3 7. We would expect agency problems to be less severe in other countries, primarily due to the relatively small percentage of individual ownership.

Solutions Manual - Georgia State University

Corporate finance is an area of finance that deals with sources of funding, the capital structure of corporations, the actions that managers take to increase the value of the firm to the shareholders, and the tools and analysis used to allocate financial resources. The primary goal of corporate finance is to maximize or increase shareholder value. Although it is in principle different from ...
