In marketing, lead generation is the initiation of consumer interest or enquiry into products or services of a business. Leads can be created for purposes such as list building, e-newsletter list acquisition or for sales leads. The methods for generating leads typically fall under the umbrella of advertising, but may also include non-paid sources such as organic search engine results or ...

Russia has an upper-middle income mixed and transition economy with state ownership in strategic areas of the economy. Market reforms in the 1990s privatized much of Russian industry and agriculture, with notable exceptions to this privatization occurring in the energy and defense-related sectors.. Russia's vast geography is an important determinant of its economic activity, with some sources ...
